DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3, 4, 6-12, and 14 (renumbered 1-11) are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Suzuki (JP 07329182, of record). Suzuki discloses a tube connecting apparatus comprising a first pressing unit 21,22, a second pressing unit 31,32, a supporting member (piston 24), and a cutting unit 4, wherein each of the first and second pressing units (part of holding assemblies 2 and 3) are independently movable via a first and second movement unit 5 (on rail 54).

Regarding claims 1, 3, 4, and 6-11, the tube connecting apparatus does not include a first and second engagement portion having inclined faces, wherein the supporting member gradually changes the pressing amount of at least one of the first and second pressing units (defined by inclined surfaces) while increasing or decreasing the engaging force.

As to claims 12 and 14, the method of Suzuki does not involve a step of pressing the tubes at a first, second, and third position, wherein (a) the first position is sandwiched between the second and third positions and (b) the applied pressure, at the third position, is larger than a corresponding pressure at a first position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
